

Ideation Phase

Define the Problem Statements

Team ID	SWTID-2026-5404
Project Name	Implement Client Script & UI Policy (Incident)
Maximum Marks	2 Marks

Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the care about - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what bothers them most?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers

Example:

I am a traveler	I'm trying to book flights on my phone	But it takes a long time	Because The website is not responsive and doesn't have a mobile version	Which makes me feel Frustrated
--------------------	---	-----------------------------	--	-----------------------------------

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a service desk agent who creates and triages Incident records	log high-impact incidents with complete data (Assignment group, Assigned to, Urgency)	records get saved with missing or inconsistent data	the form has no enforced conditional rules and relies on manual checks	frustrated and worried about SLA breaches and wrongly routed tickets

PS-2	a ServiceNow administrator responsible for Incident data quality	enforce business rules so every Incident is valid before it is saved or changed	users can bypass checks, e.g. by editing State in the list view	no client-side controls (UI Policy and Client Scripts) validate fields, saves and list edits	concerned about inaccurate reports and poor service quality
